

Principal Functioning Agent: Silicone Fluid

The ingredients used in DEFOAMER are exempt from requirements of a tolerance as specified in federal regulation 40 CFR 180.1001 (c & d) for use on growing crops.

DEFOAMER is a fast and effective utility adjuvant for suppressing foam. Controlling foam reduces filling time and lessens overflow waste.

---

### CAUTION

#### KEEP OUT OF REACH OF CHILDREN

Avoid prolonged contact with skin. May cause eye irritation. In case of contact with eyes, immediately flush with water for at least 15 minutes.

---

Net Contents: 12 x 1 Pint

### DIRECTIONS FOR USE

#### SHAKE WELL BEFORE USING

##### To Prevent Foam:

Spray directly into liquid before foaming starts. Add 1 to 2 fluid ounces of DEFOAMER per 100 gallons of spray mixture.

##### To Control Existing Foam:

To control foam once it has started, spray DEFOAMER in a zig-zag pattern over the top of the foam. A small quantity is generally sufficient to control most foam. Use additional DEFOAMER as needed.
